

HH-1902-4B

Operating Voltage= 50 Vdc
Operating Current Max= 4.0 amp
Temperature Operating= -40° To 55° C
Die Withstand (Line to Case)= 400Vdc for 1 Min
Die Withstand (Line to Line)= 100 Vdc for 1min
Non-polar

Order Part Number: HH-1902-4B

The HH-1902-4B filter is configured to work with systems that need to meet MIL-STD-461D or E.

The filter has a metal enclosure to decrease the possible signal coupling at higher frequencies

It is potted with epoxy and is designed to meet the stringent shock and vibration requirements of Mil-Std-810.
